

Land of Sky RPO assigns local input points as a two-step process; approving the DRAFT local input points list at RPO TCC/TAC meetings followed by advertising the list and accepting public comment as specified in the LOSRPO Public Involvement Plan PIP. After the public comment period LOSRPO TCC/TAC meet to approve the FINAL local input points list. RPO staff hold county specific meetings to establish local priorities then scores all projects using the adopted LOSRPO local input points methodology. County meetings were held prior to Tropical Storm Helene. Due to the degree of storm damage and the impacts caused by TS Helene, LOSRPO canceled the October 2024 TCC and TAC meetings. Therefore, while the list was developed and advertised for public comment, the LOSRPO TCC and TAC will only vote once to assign the final division needs local input points in this round of NCDOT prioritization P7.0. Please email rpo@landofsky.org with questions or concerns.

SPOT ID	County	Route	From	To	Improvement Type	Cost Estimate	SPOT Score	Local Priority	RPO Score	Points Assigned	Comments/ Variance From Methodology
H321200	Haywood	US 276 Jonathon Creek Rd		SR 1395 (Cove Creek Rd)	Intersection Improvement	\$5,000,000		1	71.51	100	None
